SSLC (80%)

Shakespeare Matriculation School

2020-06-01 - 2021-04-15

Projects

Fuse Electrician Services

Fuse Electrician Services is a complete, two-sided service marketplace developed as a Full Stack project using PHP, MySQL, HTML, CSS, and JavaScript. The platform efficiently connects customers needing electrical/technical assistance with qualified technicians via a secure, role-based system. I was responsible for designing, coding, and deploying the entire application, including database management and authentication logic, and successfully hosting it on InfinityFree.
